

Dr. Doni's Cervical Dysplasia Solutions Package

Who is this package for?

This special 6-month naturopathic treatment package is for female patients who have had an “abnormal” pap smear and are seeking natural remedies/solutions for Cervical Dysplasia. You may or may not be exhibiting symptoms.

What is Cervical Dysplasia and how does it affect your health?

Cervical Dysplasia is a condition caused by a virus called “HPV” (Human Papilloma Virus) that affects the cells on your cervix. This virus can enter your body through sexual contact, even with an otherwise healthy sexual partner.

As the condition is frequently symptom-free, many women have no idea they have Cervical Dysplasia until they are told that results of their routine pap smear have come back as “abnormal”.

Usually, minor cases of dysplasia resolve on their own within 6 months to a year. However, in some cases, if Cervical Dysplasia is left untreated, it can affect pregnancy or even develop into cervical cancer.

If your dysplasia gets to the point of becoming “pre-cancerous”, most doctors will advise you to have a colposcopy (a biopsy on the cervix) to confirm the degree of severity of your condition.

If the cells are moderately to severely abnormal, most will recommend an aggressive treatment called “LEEP” (“Loop Electrosurgical Excision Procedure”). This procedure uses a wire loop – heated by an electric current – to remove cells and tissue from your cervix. In more severe cases, a more radical procedure called a “cone biopsy” may be used, where a section of your cervix is removed.

Both of these procedures can permanently damage your cervix and put future pregnancies at risk. Even if you are not thinking about having children, they are, at best, temporary solutions because they do not address the **root cause** of what gave you the HPV virus in the first place.

What makes Dr. Doni's approach different?

As a naturopathic doctor, Dr. Doni looks at your whole body to determine what made you susceptible to the HPV virus and will customize a program to heal your cervical dysplasia naturally.

Using a protocol she developed over nearly two decades, Dr. Doni examines your hormone balance, digestive system, immune system, nutrient deficiencies and food sensitivities, as well as your stress hormones, cortisol and adrenaline.

She has found that, more often than not, there is an underlying health issue that is making you vulnerable to contracting the HPV virus and susceptible to Cervical Dysplasia. Once that underlying issue is thoroughly addressed, most patients experience a complete recovery.

In fact, Dr. Doni's natural remedy and lifestyle program for treating Cervical Dysplasia have resulted in **very high success rate (at least 90%) among hundreds of patients, over the years.**

The aims of this Cervical Dysplasia Solutions Package are to:

- 1) Identify the **underlying causes** that made you susceptible to the HPV virus.
- 2) Show you which **nutrients** your body needs to address your condition.
- 3) Design a natural remedy **plan of nutrients and herbs** that will allow your body's **natural immune system** to eradicate the HPV virus.
- 4) Design a **long-term preventative health regime** that can help minimize the likelihood of contracting the virus again, in the future.

Why is a treatment 'package' better than 'a la carte'?

This package costs significantly less than the same treatment 'a la carte'. **But Dr. Doni also knows that those women who faithfully follow the COMPLETE protocol** are the ones who are most likely to *recover completely and permanently*. From experience, she knows that patients who commit to a 6-month package like this tend to *stick* to their health regime more faithfully, thus increasing their chances for better results.

What is included in this treatment package?

TESTING/HEALTH PANELS

In this package, you will take the following panels*:

- 4-timed salivary cortisol panel
- Urinary neurotransmitter panel (serotonin, GABA, adrenaline, etc.)
- IgG and IgA food sensitivities panel for 96 foods

**If you have recently done any of these panels, you will not need to do them again. Simply ask your doctor to send the test results to Dr. Doni's office. The price of your package will be adjusted accordingly.*

ESCHAROTIC SUPPLIES

This package **includes** the cost of supplies for your escharotic treatments (apart from zinc, which must be ordered separately). All of this will be explained at your first session. If Dr. Doni determines that you do not need to have escharotic treatments, your costs will be adjusted accordingly.

CONSULTATIONS (5)

You will have FIVE private sessions with Dr. Doni, spread out over a 6-month period. These include:

- ONE initial 60-minute consultation to discuss your condition and arrange for your testing to be done.
- ONE additional 60-minute session to do your first **escharotic treatment** and training (*this MUST be done in our Connecticut office*).
- ONE 45-minute sessions to go through the tests and give recommendations for treatment. This can be done over the phone if necessary.
- ONE 15-minute phone session to assess progress and answer any questions you may have
- ONE 30-minute session after your next pap smear to assess your success and ensure you understand the best regime to follow for the future.

Book your first appointment via email at schedule@doctordoni.com or online at <https://doctordoni.com/schedule>

KINDLY NOTE: All of the above consultations must be completed within the agreed timeframe of the package. Additional consultations may be added if needed.

Patients are responsible for scheduling all consultations and follow-ups either via email (schedule@doctordoni.com) or online at <https://doctordoni.com/schedule>. We recommend scheduling well in advance to ensure availability at your preferred time.

SUPPLEMENTS and NUTRIENTS

While this package does NOT include supplements, it entitles you to a **10% discount on ANY supplements** you purchase from Dr. Doni during your six months of work together.

EXTRA GOODIES

As part of your package, you will also receive:

- A summarized list of foods for you to avoid based on your test results
- Paperback copy of Dr. Doni's book *The Stress Remedy* (retail value \$25)
- Three weeks' worth of daily 'Stress Remedy' health tips (via email) to support you with any diet and health changes you make during your program (retail value \$47).

ADDITIONAL SUPPORT

This package also includes email support (during office hours only), where you can email brief questions in between your consultation sessions. Dr. Doni or a member of her team will aim to reply within 48 hours.

Do I need to come to your office?

Most patients do, but some prefer to meet "virtually" (by phone or HIPPA compliant video call), especially if they live far away. **Your escharotic treatment(s) MUST be done at our Connecticut office.**

During your first escharotic treatment, Dr. Doni will train you how to do your future treatments by yourself at home. If you are uncomfortable performing your own treatment, Dr. Doni can provide future treatments in-office for an additional cost of \$250.00 each.

How much does this treatment package cost?

The total cost of this 6-month package is \$2,395. You may opt to pay in two installments: \$1,600 upon your first visit, and the balance of \$795 one month later.

NOTE: Much of this fee is to cover the cost of the tests you will be taking. If you have already had a complete genetic profile test in the past, or you have recently had any of the other tests listed above, you will not necessarily need to do them again, and the cost of your package will be reduced accordingly.

THIS PACKAGE gives you \$345 in savings over 'a la carte' pricing for the same services, PLUS you receive the added benefit of 10% off ALL your supplements for six months.

How Do I Get Started?

Simply book your first appointment by sending an email to schedule@doctordoni.com, or by using the online booking form at <https://doctordoni.com/schedule>. During your initial consultation, you and Dr. Doni will determine which package is the most appropriate for your health needs.

About Dr. Donielle (Doni) Wilson, Naturopathic Doctor

DR. DONI WILSON, N.D. is a Doctor of Naturopathic Medicine, natural health expert, nutritionist and midwife.
