

Dr. Doni's Cervical Dysplasia Solutions Package

Who is this package for?

This special 6-month naturopathic treatment package is for women who have had an “abnormal” pap smear and are seeking natural remedies/solutions for cervical dysplasia. You may or may not be exhibiting symptoms.

What is cervical dysplasia and how does it affect your health?

Cervical dysplasia is a condition caused by a virus called “HPV” (Human Papilloma Virus) that affects the cells of your cervix. This virus can enter your body through sexual contact, even with an otherwise healthy sexual partner. As the condition is frequently symptom-free, many women have no idea they have cervical dysplasia until they are told that results of their routine pap smear have come back as “abnormal”.

Usually, minor cases of dysplasia resolve on their own within 6 months to a year. However, if cervical dysplasia is left untreated, it can sometimes develop into cervical cancer. **If your pap smear results say your condition has become “pre-cancerous”,** most doctors will advise you to have a colposcopy (a biopsy on the cervix) to confirm the degree of severity of your condition.

If the cells are moderately to severely abnormal, most doctors will recommend an aggressive treatment called “LEEP” (“Loop Electrosurgical Excision Procedure”). This procedure uses a wire loop – heated by an electric current – to remove cells and tissue from your cervix. In more severe cases, a more radical procedure called a “cone biopsy” may be used, where a section of your cervix is removed.

Both procedures can permanently damage your cervix and put future pregnancies at risk. Worst of all, they are at best *temporary solutions* because they do not address the **root cause** of how you developed the HPV virus in the first place.

What makes Dr. Doni's approach different?

Most practitioners don't view cervical dysplasia and HPV as things that go away, nor do they recommend herbs, nutrients, or other approaches, even though research shows that even the use of single nutrients can reverse cervical dysplasia.

Dr. Doni trained with Dr. Tori Hudson, a well-known expert in women's health, from whom she learned her evidence-based approach. Over the years, Dr. Doni added to this approach based on her experience indicating that **stress in all its various forms** – mental, emotional, financial, relationships, foods, toxins, medications, and more – is typically responsible for making you **vulnerable to contracting the HPV virus** and **susceptible to cervical dysplasia**.

To address the root cause of your susceptibility, **Dr. Doni looks at all the systems in your body.** Using a protocol she has developed over nearly two decades of professional practice, Dr. Doni examines your hormone balance, digestive system, immune system, nutrient deficiencies and food sensitivities, as well as your stress hormones, and levels of cortisol and adrenaline, to **identify the stresses underlying your condition** and customize a program to heal your cervical dysplasia naturally – without the need for surgery or prescription medications.

Over the years, Dr. Doni's unique natural remedy and lifestyle program for reversing cervical dysplasia has achieved **a success rate of over 90% among hundreds of patients.**

Why is a “package” better than “a la carte”?

There are several advantages to choosing one of Dr. Doni’s consultation packages:

- All treatment packages **cost significantly less** than the same services “a la carte”.
- You will be entitled to a **10% discount on ANY supplements** purchased from DrDoniStore.com for the duration of your package.
- You will have access to a **private Facebook group**, where you can **ask questions (and get answers!)** about your health issue, share experiences with other patients, and take advantage of **special “members only” discounts on health supplements** (for the duration of your package).
- You will receive a free paperback copy of Dr. Doni’s book *The Stress Remedy* (value \$25).
- You will receive the Stress Remedy Program daily **health tips** by email for 21 days, including the **21-day meal plan and recipes**.
- Best of all, patients who commit to a 6-month package **tend to stick to their health regimen more faithfully**, thus increasing their chances for better results.

What is included in this package?

TESTING/HEALTH PANELS

In this package, the following panels are included*:

- IgG and IgA food sensitivities panel for 96 foods
- 4-timed salivary cortisol panel
- Urinary neurotransmitter panel (serotonin, GABA, adrenaline, etc.)

** If you have recently done any of these tests, you will not necessarily need to do them again. Simply ask your doctor to send the test results to Dr. Doni's office. The price of your package will be adjusted accordingly.*

TWO PATHWAYS, DEPENDING ON THE SEVERITY OF DYSPLASIA

Dr. Doni will ask you to send her the results of your most recent pap smear and colposcopy (if you’ve had one).

- If your results indicate escharotics are needed, you will be put on **pathway one**, which includes escharotic supplies and training in how to use them.
- If escharotics are not needed, you will be put on **pathway two**.

Book your first appointment via email at schedule@doctordoni.com or online at <https://doctordoni.com/schedule>

CONSULTATIONS (5) FOR PATHWAY ONE – WITH ESCHAROTICS

You will have FIVE private consultations with Dr. Doni, spread out over a six-month period. These include:

- ONE comprehensive 60-minute consultation to discuss your health issues and individualize your plan.
- ONE special 90-minute consultation to do your first **escharotic treatment** and **training** (*this MUST be done in our Connecticut office*).
- ONE extended 45-minute consultation to go through the results of your health panels, discuss progress and give recommendations. This can be done over the phone, if you prefer.
- ONE regular 30-minute consultation (in office or over the phone) to assess progress and answer any questions you may have.
- ONE regular 30-minute consultation after your next pap smear to assess your success and ensure you understand the best regimen to follow for the future.

CONSULTATIONS (4) FOR PATHWAY TWO – WITHOUT ESCHAROTICS

You will have FOUR private consultations with Dr. Doni, spread out over a six-month period. These include:

- ONE comprehensive 60-minute consultation to discuss your health issues and individualize your plan.
- ONE extended 45-minute consultation to go through the results of your health panels, discuss progress and give recommendations. This can be done over the phone, if you prefer.
- ONE regular 30-minute consultation (in office or over the phone) to assess progress and answer any questions you may have
- ONE regular 30-minute consultation after your next pap smear to assess your success and ensure you understand the best regimen to follow for the future.

Patients are responsible for scheduling all consultations and follow-ups either via email (schedule@doctordoni.com) or online at <https://doctordoni.com/schedule>. We recommend scheduling well in advance to ensure availability at your preferred time.

KINDLY NOTE: All consultations must be completed within the agreed 6-month package timeframe. Additional consultations may be added as needed.

SUPPLEMENTS and NUTRIENTS

While this package does not include supplements, it entitles you to a 10% discount on ANY supplements you purchase from DrDoniStore.com during your six months of work together.

ADDITIONAL SUPPORT

You will have access to a **private Facebook group**, where you can **ask questions (and get answers!)** about your health issues and treatment program, **share experiences** with other patients, and take advantage of **special offers** on health supplements, available only to members of the group.

Book your first appointment via email at schedule@doctordoni.com or online at <https://doctordoni.com/schedule>

EXTRA GOODIES

As part of your package, you will also receive:

- A summarized list of foods for you to avoid, based on your results
- A paperback copy of Dr. Doni's book *The Stress Remedy* (retail value \$25)
- Three weeks' worth of daily "Stress Remedy" health tips (via email) to support you with any diet and health changes you make during your program (retail value \$47)

Do I need to come to your office?

If you are on Pathway ONE, your first escharotic treatment(s) MUST be done at our Connecticut office. During that consultation, Dr. Doni will train you in how to do your future escharotics by yourself at home. If you are uncomfortable performing your own treatment, Dr. Doni can provide future treatments in-office at her normal hourly rates (not included in the package).

All other consultations can be done either in-office or by phone or HIPPA compliant video call, as you prefer.

How much does this package cost?

PATHWAY ONE (with escharotics)

The total cost of this 6-month package is \$2,997. You may opt to pay in two installments: \$2,000 upon your first visit, and the balance of \$997 one month later.

THIS PACKAGE gives you \$390 in savings over "a la carte" pricing for the same services, PLUS 10% off ALL your supplements for 6 months, and access to the private Facebook group.

PATHWAY TWO (without escharotics)

The total cost of this 6-month package is \$2,257. You may opt to pay in two installments: \$1,500 upon your first visit, and the balance of \$757 one month later.

THIS PACKAGE gives you \$290 in savings over "a la carte" pricing for the same services, PLUS 10% off ALL your supplements for 6 months, and access to the private Facebook group.

***NOTE:** Much of the initial fee is to cover the cost of your health panels and escharotic supplies. If you have recently done any of the panels we require, simply ask your doctor to send the results to Dr. Doni's office, and the cost of your package will be reduced accordingly.*

How do I get started?

Simply book your first appointment by sending an email to schedule@doctordoni.com, or by using the online booking form at <https://doctordoni.com/schedule>. During your initial consultation, you and Dr. Doni will determine which package is the most appropriate for your health needs.
