Dr. Doni's
Autoimmunity Solutions Package

Who is this package for?

This special 6-month naturopathic treatment package is for patients suffering from symptoms of autoimmunity/autoimmune disease, such as Hashimoto’s thyroiditis, Celiac disease and rheumatoid arthritis. This package is also perfect for patients who have fatigue, fibromyalgia, endometriosis, chemical sensitivities, allergies, dementia and/or signs of oxidative stress, or who have a family history of such conditions and wish to prevent them from arising in themselves.

What is autoimmunity?

Your immune system is designed to attack “foreign invaders” that enter your body, such as unhealthy bacteria, viruses, toxic substances, and allergens. In some cases, however, your immune system can become confused and start destroying cells of your body's tissue or organs, mistaking them for foreign cells. We call this malfunction “autoimmunity,” meaning your body is essentially attacking itself (“auto”). Left unaddressed, autoimmunity can cause many debilitating – and sometimes life-threatening – conditions.

What conditions can autoimmunity cause?

Over 100 serious health conditions are autoimmune in origin. And more are being added to the list each year as research reveals autoantibodies involved in the pathogenesis. Each condition affects you differently, depending on which part(s) of your body your immune system is attacking. Some of the most common autoimmune conditions are:

- Type 1 diabetes
- Rheumatoid arthritis
- Hashimoto’s disease
- Grave’s disease
- Multiple sclerosis
- Lupus
- Behcet’s syndrome
- Celiac disease
- Crohn’s disease
- Myasthenia gravis
- Psoriasis

Additionally, recent studies show these conditions are at least in part related to autoimmunity:

- Fibromyalgia; chronic pain syndrome
- Chronic fatigue syndrome
- Alzheimer’s disease
- ALS (amyotrophic lateral sclerosis)
- Endometriosis
What symptoms could be signs of an autoimmune issue?

While each of the conditions listed above has its own specific symptoms, there are other, more general symptoms that could indicate an underlying autoimmune issue:

- Environmental or chemical sensitivities
- Unexplained allergic reactions, hives, swelling
- Brain fog, lack of mental clarity
- Fatigue, exhaustion, weakness
- Aches and pains

How do most mainstream medical professionals address autoimmunity?

Unfortunately, many mainstream practitioners are slow to recognize or diagnose autoimmunity issues. Some will tell you nothing is wrong, or that your symptoms are simply signs of aging that you need to accept passively.

Even once you have been diagnosed with an autoimmune condition (which is often only after the symptoms have progressed extensively), most practitioners will treat you by prescribing medication to decrease inflammation, suppress your immune system, and/or manage some of your symptoms or pain.

At first impression, suppressing the immune system makes sense, and is necessary in some cases. However, immunosuppressive and anti-inflammatory medications, such as prednisone, suppress both the autoantibodies AND your healthy immune system, leaving you more vulnerable to other health concerns, such as bone loss, diabetes, heart disease, and cancer.

What makes Dr. Doni’s approach different?

Dr. Doni knows there is no one-size-fits-all description of autoimmunity; it will show up differently for each individual. That is why the first thing she will do is determine exactly what is going on in all your bodily systems, so she can identify the root cause(s) of your condition(s). To find out this information, she will:

1. Use various specialty health panels to check for adrenal distress, leaky gut, dysbiosis, oxidative stress, and methylation problems.
2. Analyze your genetic health profile, to see if your DNA indicates a predisposition towards autoimmunity. Very few medical practitioners, even in the field of naturopathy, include genetic health profiling as part of their approach.
3. Formulate a comprehensive picture of your stress and toxin exposure, to see how this may be adversely affecting your health.

Once you and Dr. Doni examine what triggered your autoimmunity in the first place, she will work closely with you to design a unique, step-by-step strategy to re-optimize and rebalance your bodily systems, make diet and lifestyle changes, and eliminate environmental triggers. She will also show you how to support your body, so autoimmunity can “switch off” and your body can begin to repair damaged cells caused by autoimmunity.

All this can help you get back to living a healthier, drug-free, and symptom-free life.
Why is a “package” better than “a la carte”?

There are several advantages to choosing one of Dr. Doni’s consultation packages:

- All treatment packages cost significantly less than the same services “a la carte”.
- You will be entitled to a 10% discount on ANY supplements purchased from DrDoniStore.com for the duration of your package.
- You will have access to a private Facebook group, where you can ask questions (and get answers!) about your health issue, share experiences with other patients, and take advantage of special “members only” discounts on health supplements (for the duration of your package).
- You will receive a free paperback copy of Dr. Doni’s book *The Stress Remedy* (value $25).
- You will receive the Stress Remedy Program daily health tips by email for 21 days, including the 21-day meal plan and recipes.
- Best of all, patients who commit to a 6-month package tend to stick to their health regimen more faithfully, thus increasing their chances for better results.

What is included in this package?

**TESTING/HEALTH PANELS**

In this package, the following panels are included*:

- IgG and IgA food sensitivities panel for 96 foods
- Organic acids and toxins panel
- Salivary cortisol panel with 8OHdG (checked four times over a 24-hour period)
- Urinary neurotransmitter panel (serotonin, GABA, adrenaline, etc.)
- Complete genetic report with clinically relevant genes related to methylation, neurotransmitters, sulfur metabolism, and histamine metabolism.**

Additionally, you may need to do a methylation panel (blood test) independently. Some additional blood work may also be required (e.g. homocysteine, metabolic panel, thyroid, etc.), which can be done either through your doctor or through Dr. Doni’s office.

* If you have recently done any of these tests, you will not necessarily need to do them again. Simply ask your doctor to send the test results to Dr. Doni’s office. The price of your package will be adjusted accordingly.

** For your genetic health profile, you will need to purchase a DNA test directly from 23AndMe.com. Dr. Doni will tell you how to do this at your first consultation. The cost of that test is not included in this package.

How much does this package cost?

The total cost of this 6-month package is $3,697. You may opt to pay in three installments: $2,000 upon your first visit, $1,000 one month later, and the balance of $697 at the beginning of your third month on the program.

**THIS PACKAGE gives you $410 in savings over “a la carte” pricing for the same services, PLUS 10% off ALL your supplements for 6 months, and access to the private Facebook group.**
