Dr. Doni's
Women's Wellness Solutions Package

Who is this package for?

This special 6-month naturopathic treatment package is for women of all ages, who may be struggling with female health issues caused by troublesome hormone imbalances and would like to find natural, holistic, and customized solutions that will endure throughout the rest of their lives.

Why does Dr. Doni offer a special package JUST for women?

From a medical perspective, the female body is markedly different from a man's. Our unique biology and physiology are responsible for a whole range of women-specific concerns, such as menstruation, PMS, polycystic ovaries, pregnancy, childbirth, lactation, and menopause. ALL these issues boil down to one thing: fluctuations in our delicate hormonal balance. Imbalances in our female hormones can also create imbalances in other bodily systems, including the nervous system, immune system, and digestive system. In short, our female hormones can have a profound effect on the way we feel, both physically and emotionally.

Unfortunately, many traditional medical professionals are dismissive about female hormones, seldom taking women’s complaints about their hormones very seriously. Hormone fluctuations – and the emotional roller coaster they bring – are seen as “just a part of life”, a “mystery” women simply have to accept. Because this seems to be the standard attitude towards female hormones in medicine (and society in general), many women suffer in silence, secretly feeling enslaved by their own bodies and their ever-changing emotions.

Dr. Doni wants all women to understand that hormones are NOT some great mystery. There is a science to hormones, and when you understand it, you CAN do something about your hormone challenges. That is why she has created this unique wellness package for patients suffering with women-specific health problems.

Problems you might currently be experiencing

Some of the most common health complaints arising from female hormone imbalances include:

- Menstrual irregularities
- PMS, including cramps, menstrual pain, mood swings, tearfulness, etc.
- Polycystic ovary syndrome (PCOS)
- Endometriosis
- Pregnancy and/or fertility issues
- Postpartum and lactation difficulties
- Libido issues (either too high or low)
- Vaginitis and vulvodynia
- Interstitial cystitis and recurrent urinary tract infections
- Menopause or peri-menopause issues (hot flashes, night sweats, joint pain, and sleep issues)
What makes Dr. Doni’s approach unique?

Unlike many mainstream medical doctors, Dr. Doni’s aim is not only to help alleviate your symptoms, but to identify and address the underlying causes of your hormone imbalances – naturally. For this reason, in addition to recommending a comprehensive hormone panel, she will check for food sensitivities and measure your neurotransmitter levels, as all these factors play a part in the “bigger picture” of your overall health.

Based on the results of your health panels, you and Dr. Doni will work together to create an individualized strategy to balance your hormone and optimize your health, using nutrients, herbs, natural supplements, dietary adjustments, and various lifestyle changes Dr. Doni calls “stress remedies”.

Why is a “package” better than “a la carte”?

There are several advantages to choosing one of Dr. Doni’s consultation packages:

- All treatment packages cost significantly less than the same services “a la carte”.
- You will be entitled to a 10% discount on ANY supplements purchased from DrDoniStore.com for the duration of your package.
- You will have access to a private Facebook group, where you can ask questions (and get answers!) about your health issue, share experiences with other patients, and take advantage of special “members only” discounts on health supplements (for the duration of your package).
- You will receive a free paperback copy of Dr. Doni’s book The Stress Remedy (value $25).
- You will receive the Stress Remedy Program daily health tips by email for 21 days, including the 21-day meal plan and recipes.
- Best of all, patients who commit to a 6-month package tend to stick to their health regimen more faithfully, thus increasing their chances for better results.

What is included in this package?

TESTING/HEALTH PANELS

In this package, the following panels are included*:

- Comprehensive hormone panel (estrogen, progesterone, testosterone, melatonin, 8OHdG, and cortisol).
- Urinary neurotransmitter panel (serotonin, GABA, adrenaline, etc.)

Some additional blood work may also be required (e.g. homocysteine, metabolic panel, thyroid, etc.), which can be done either through your doctor or through Dr. Doni’s office.

* If you have recently done any of these tests, you will not necessarily need to do them again. Simply ask your doctor to send the test results to Dr. Doni’s office. The price of your package will be adjusted accordingly.
